## FIRE RESISTANCE CABLE (XLPE / SILICON INSULATED)

The cables are designed, manufactured and tested as data transmission cables for emergency services. These are used for data and voice transmission when the highfrequency signal has to be assured also in the event of a fire.

#### **Specifications**

Conductor: Plain Annealed Copper Screening: Aluminium/Polyester tape Voltage rating: 500 V Outer Sheath: Thermoplastic LSZH compound type LTS3 as per BS 7655-6.1...read more

### **48 PAIR SIGNAL CABLE**

This cable is designed to connect electrical instrument circuit and provide communication service in and around process plant. Multipair cables consist of groups of insulated conductors that are first twisted into pairs before being cabled together.

#### **Specifications**

Conductor: Annealed Tinned Copper Cable Dia: 40mm +/- 3mm Cross-Sectional Area: 0.52 Sqmm Insulation: Solid Polyethylene Pair/Overall Shielding: Aluminum backed Mylar Screen with ATC Drain Wire...read more
